ADJUVANT

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of nonionic surfactants and humectants	80.0%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS	20.0%
Total	100.0%

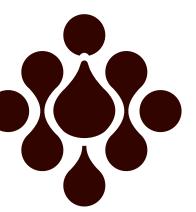

NON-IONIC SURFACTANT

KEEP OUT OF REACH OF CHILDREN CAUTION SHAKE WELL BEFORE USING

Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Do not take internally. Wear chemical eyewear, chemical resistant gloves, footwear and long-sleeve shirt and pants. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID		
IF SWALLOWED:	 Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. 	
IF ON SKIN OR CLOTHING:	Take off contaminated clothing.Rinse skin immediately with plenty of water for 15-20 minutes.	
IF INHALED:	 Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. 	
IF IN EYES:	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. 	
Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.		

ADJUVANT

GENERAL INFORMATION

80/20 SELECT is a high-quality, general purpose nonionic surfactant. 80/20 SELECT may be used with any insecticides, fungicides, herbicides, acaricides, defoliants, desiccants and wettable powders. 80/20 SELECT will increase pesticidal activity by increasing the wetting and spreading ability of the spray solutions.

DIRECTIONS FOR USE		
APPLICATION	USE RATE Ounces per 100 gallons of mix	
Insecticides	3 to 8	
Fungicides	3 to 8	
Herbicides	8 to 16	
Acaricides	3 to 8	
Defoliants	8 to 16	
Desiccants	8 to 16	
Wettable powders	8 to 16	

Use more when conditions are hot and dry and less when weeds are young and new. Not for aquatic use.

MIXING INSTRUCTIONS

Always follow the instructions on the label for the pesticide being used. If the pesticide label does not give instructions use the WALES method:

1. Wettable powders then dry flowables, agitating constantly and allowing each powder to disperse thoroughly before adding the next ingredient

2. Adjuvants such as antifoams and water conditioners but not surfactants

- 3. Liquid and soluble products
- 4. Emulsifiable concentrates and
- 5. Surfactants

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Product Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
